- ▶ Match Analysis (Director of International Development)

POSITIVE EXAMPLES

- **Tus Bechhofen:** At 18, I encountered someone who asked me, 'Are you happy with your life?' I replied, 'No! I'm playing in the worst league in the world—the 11th division in Germany.' He started being my mentor, guided me and 6 to 8 months later, I signed a contract in the 3rd Bundesliga, achieving a remarkable leap of 8 divisions.
- **FC Homburg:** We played in the 2. Bundesliga and barely managed to stay in the league, finishing just one point above relegation. We got a new coach, we implemented a new method and structure, and one year later, we won the championship, earning our promotion to the Bundesliga for the first time in our history.
- **FC Kaiserslautern:** In 1990, we went from falling into last place with a new coach 3 months before the end of the season to winning the Bundesliga Cup. The following season, we continued our victory streak by winning the 1991 Bundesliga Championship and the German Supercup.
- **FC Schalke 04:** When I initially joined the team in 1996, the club's goal was to simply end the season in 9th place. Rather than 9th, we finished 3rd; the following year, we won the 1997 UEFA Cup.
- **USA National Team:** At the World Cup 1994, we had 70% our players playing in the college or amateur league in the USA. Some didn't even have a team. With the right mindset we surprisingly won 2:1 against the World Cup favorite Colombia and lost only 1:0 against the World Cup in 1994 winner Brazil with 0:1.
- **USA U20:** A surprised, qualification in Mexico to attend the World Cup in Turkey.
- **USA U18 Academy League:** This is the highest league in the USA. In 42 games the team didn't win one game and finished last. The president brought me in as a new coach of the U18 team. In 48 games we lost only 3 games. We won the last 23 games in a row and won the USA Championship against all Pro MLS Academy teams.
- **Philippines AZKALS:** During the 4 years I spent on the team, we played great football - we broke 11 records and impressively qualified for the Asian Cup.

*"There was great team spirit visible and a 'never give up' mentality
Hard work pays off, and an 'anything is possible' belief was developed.*

"Something happened with those teams."

WHAT CAN YOU EXPECT AND WHAT CAN I PROVIDE?

“I’m a coach with pride, joy, passion and conviction.

My goal is to pursue a great challenge, where I can showcase my knowledge and accomplishments in football.

To achieve that, I aspire to acquire a coaching job with clear goals, where I can work collaboratively with a fantastic, supportive organization and help to build a team that plays successful football with a great team spirit.

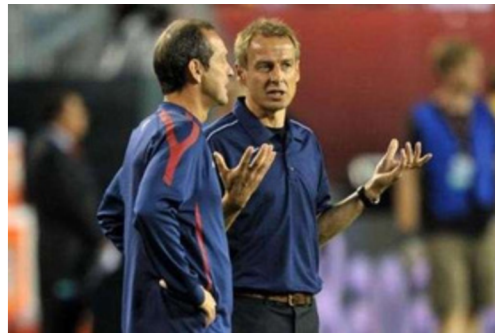

We don’t need to have the best players in order to win a championship. It is the best TEAM that plays successfully and wins trophies.

I intend to build up players who believe in themselves, play with confidence and develop a winning GENE.

After spending many years on football fields all over the world (2 World Cup participations, 81 games for the US National Team, numerous Champions League and UEFA Cup games, 15 years of playing in the German Bundesliga and 4 seasons in MLS), I am certain that building a successful team is a football coach’s most important and necessary duty.

- Immense soccer expertise
- High social competence with everyone involved (management, player, media, fans)
- Honest, openness and respectful communication

- Good administration & organization
- Enthusiastic, dedicated, disciplined, and success-oriented
- Clear goals, a positive attitude, and unbreakable psychology
- Experience with youth, amateur and professional international football teams
